Objective

- To work as a Software Engineer/Web Application Developer within an innovative, bright and forwardthinking company based in Tokyo.
- To develop the Web Application of the future.
- To continue learning the latest state of the art programming technologies and methodologies

Work Experience

- July 2007 to Present – Byteset (<http://byteset.com>)
In 2007 I founded Byteset and worked freelance as a Web Application Developer.
(Please view my portfolio at byteset.com for more information.)
- August 2002 to July 2007 – Secarta (<http://secarta.com/>)
Worked as a Software Engineer, programming mainly in Java, C, C++ and .Net
Collaborated in the development of HTTPSec (<http://httpsec.com/>) in java
Developed HTTPSec as apache module and php extension in C
Developed “Speed SignIn” (<http://secarta.com/products/ssi/>) for Internet Explorer in C++ .Net
At Secarta I became proficient in Web Security, authentication protocols, software life cycle and learned to successfully work within a team and to see projects to the end.

Education

- 07/2002 Bachelor of Science, Software Engineering, Westminster University, London
- 24/08/2006 Sun Certified Programmer, Java 2 Platform, SE 5.0
